Playwright, Pandas, Web Scraping,
REST APIs

Infrastructure & Support

Network monitoring (NOC),
hardware maintenance, data
recovery (SSD), Helpdesk,
networking, Linux (command line)

Tools

Git & GitHub, CRM, Spreadsheets
(Google/Excel)

LANGUAGES

Portuguese: Native

English: Fluent

STRENGTHS

Problem-solving · Analytical thinking
· Self-taught · Communication ·
Results-oriented

PROFESSIONAL PROFILE

Information Technology professional focused on Web Development and Process Automation. **Graduated in Systems Analysis and Development**, with solid hands-on experience building automations and scripts in Python to solve real business problems and optimize daily routines. I also have experience in infrastructure, technical support and network monitoring (NOC). I am looking for the opportunity to work as a **Developer** or **Technical Support Analyst**, combining programming logic, analytical thinking and a commitment to results.

PROFESSIONAL EXPERIENCE

NOC Intern (Network Operations Center)

RL Net · May to June 2026

- Worked in a NOC environment, following the monitoring of networks, links and servers and the availability of services.
- Assisted in logging and tracking network incidents, supporting the technical team in resolving tickets.

Technical Support & Automation Intern

Money Promotora · February to April 2026

- Built web automations and scripts in **Python** (Playwright and Pandas) to extract and handle data in bulk, eliminating hours of manual work and speeding up the department's internal workflows.
- Provided technical support through a ticketing system (Helpdesk), handling and resolving user tickets.
- Performed preventive and corrective hardware maintenance: assembling computers, configuring printers and recovering data from corrupted SSDs.

Digital SDR

Villela Brasil Bank · 2025

- Managed relationships with corporate clients using a **CRM** system, handling scheduling and the follow-up of commercial projects.
- Created and organized Google Sheets spreadsheets to control and analyze prospecting data.

EDUCATION

Associate Degree in Systems Analysis and Development

UNIASSELVI · Completed in 2026

Professional Course in IT Infrastructure

UNIASSELVI · Completed in 2025
